SPECIAL CONDITIONS

1. Master Meters

When applied to Mobile Home Parks receiving service through one (master) meter, the minimum charge and monthly charge shall be multiplied by the number of residential dwelling units wired for service.

2. Miscellaneous

For customers who use service for only part of the year, this schedule is applicable only to an annual contact.

3. Multiplier

In determination of the multiplier, it is the responsibility of the customer to advise the Utility within 15 days following any change in the number of mobile homes wired for service.

4. Life Support Devices:

A residential customer who certifies in writing that regular use of a medical life support device, as defined below, is essential to maintain the life of a full-time resident of the household is eligible for the Tier 2 Energy Rate for the first 1,500 KWh of usage (above the first tier of 325 KWh). Certification by a doctor of medicine or osteopathy

licensed to practice medicine in the State of California that a particular device is necessary to sustain the user's life may be required.

A Life Support Device is defined as any medical device requiring Utility supported energy for its operation that is regularly required to maintain the life of a person residing in a residential unit. The term includes respirators, iron lungs, hemodialysis machines, suction machines, electric nerve stimulators, pressure pads and pumps, aerosol tents, electrostatic and ultrasonic nebulizers, compressors, IPPB machines and motorized wheelchairs. The term does not include therapeutic devices such as whirlpool pumps, heating pads, vaporizers, and humidifiers.

Residents who received Utility-supported energy through a mobile home park master meter and could qualify for the Tier 2 Energy Rate for the first 1,500 KWh of usage (above the first tier of 325 KWh) because of a Life Support Device shall apply to the City of Lompoc's Utility Division. Such applications, upon approval by the City, are then communicated to the primary Utility customer (the Mobile Home Park) who is responsible for providing the necessary rate structure to the resident.

5. Space Heating

Residential customers with electric space heating as the principal source of home heating will be charged the Tier 2 Energy Rate for kilowatt usage from 326 to 1500 KWh during the seven (7) months of November through May, inclusive. The Tier 1 Energy Rate will apply to the first 325 KWh of usage. These rates will be applied following application by the customer and verification thereof by the City. Customers are only eligible for this discount if they were a customer of the City of Lompoc on December 31, 2007; the customer was receiving the discount as of December 31, 2007; and is currently receiving their service at the same address as they received service on December 31, 2007, with no lapse in service.

Such residential customer information shall be communicated to the primary Utility customer (the Mobile Home Park) who is responsible for providing the necessary rate structure to the resident.
