

**ATTACHMENT 3
RESOLUTION NO. 5888(14)**

Supersedes Schedule A-1 of Resolution No. 5592(09)

Schedule No. A-1

GENERAL SERVICE

APPLICABILITY

This schedule applies to single-phase or polyphase alternating current service, or to a combination thereof, and is applicable to industrial, commercial and municipal service whose energy consumption generally does not exceed 25,000 kilowatt-hours (kWh) per monthly billing cycle.

Assignment to Schedule: If, in the judgment of the Utility, or its authorized employee, an account is expected to have usage below 25,000 kWh per monthly billing cycle for more than six months in a year, the Utility has the option of placing the account on this schedule at the initiation of service. After initiation of service, changes to or from this schedule would follow criteria in ATTACHMENT 1 – General Conditions.

This schedule is not available for service when another commercial or industrial schedule is applicable.

TERRITORY

The entire area served by the City of Lompoc Electrical Utility.

CHARGES
