

# *Lompoc City Council Agenda Item*

**City Council Meeting Date:** July 5, 2011

**TO:** Laurel M. Barcelona, City Administrator

**FROM:** Stacy L. Lawson, Senior Environmental Coordinator  
[s\\_lawson@ci.lompoc.ca.us](mailto:s_lawson@ci.lompoc.ca.us)

**SUBJECT:** Resolution No. 5723 (11) Approval of the Annual Maintenance & Operations Plan Environmental Documentation

---

**RECOMMENDATION:** That the City Council adopt Resolution No. 5723 (11) approving the Annual Maintenance & Operations Plan (AMP) for Fiscal Year 2011/2012 and authorize staff to submit the Notices of Exemption to the Santa Barbara County Clerk of the Board.

**DISCUSSION:** The AMP has been prepared to streamline environmental review of routine City maintenance and operations activities that have no significant environmental impacts. Each maintenance activity listed in the AMP has been reviewed for consistency with the requirements of the California Environmental Quality Act (CEQA) and its guidelines and has been determined to be Categorical Exempt. Maintenance activities that cannot be exempted from CEQA will be reviewed individually.

**FISCAL IMPACT:** The fiscal impact of adopting the AMP is positive, as it reduces the staff time necessary to comply with CEQA, by consolidating review of Categorical Exempt projects that are a part of normal City operations. This alleviates the need to review each of these actions individually.
