*Lompoc, CA* – The City of Lompoc is looking beyond today’s technologies, to bring residents and businesses a broadband network that will grow as their needs grow.

The first step is a citywide Internet service, delivered wirelessly to every home and business in town. It’s a city-owned and operated service, just like electricity and water.

The City of Lompoc needs YOUR input in designing YOUR Internet service Logo or symbol. YOUR service will be delivered via wireless access points, installed throughout the City. It will allow you to work or surf the web from home, or cut the cord and go anywhere in town. You can connect your desktop computer directly to the Internet, or take your laptop anywhere in town and still stay in touch. No wires to tie you down. Unplug your creativity, unleash your imagination and design a logo or symbol that represents this freedom to use the Internet anywhere in the City of Lompoc. The winning logo design will be used in advertising materials, signage, and a wide range of other promotions throughout Lompoc.

The new design will be unveiled at the April 19<sup>th</sup> City Council meeting with the winner receiving a lap top computer and a year of Internet service. Five runner-ups will receive one year of Internet service. If the winning entry is a student, his or her school will also receive a lap top computer. All design entries will be displayed at the Spring Arts Festival.

Submit your design to Lompoc Internet Service Logo Contest, City Hall, 100 Civic Center Plaza, Lompoc, CA 93438-8001 by April 2<sup>nd</sup>, 2005. You may pick up entry forms from City Hall or visit [www.lompoc.tv](http://www.lompoc.tv) to print an official entry form to submit with your design.
