

City Council Agenda Item

City Council Meeting Date: January 5, 2021

TO: Honorable Mayor and Members of the City Council

FROM: Jim Throop, City Manager
j_throop@ci.lompoc.ca.us

SUBJECT: Consideration of City Council's List of Requested Future Agenda Items and Potential Amendment, Addition, or Removal of Items

Recommendation:

Staff recommends the City Council review and discuss their list of requested future agenda items and potential amendment, addition, or removal of items, and to give staff direction on how to proceed.

Background:

The City Council will, from time to time, make special requests for items to be brought back to it for discussion and possible action. These requests must have a total of three Council Members agreeing to the proposed item in order for the item to be worked on by staff and brought back for discussion and possible action.

Discussion:

Over the course of time, the number of items on the City Council request list has fluctuated up and down, as staff was able to complete each item. However, due to the recent change in the Council Members, the City Manager believed it would be best to return the list to the City Council to affirm or modify the items currently on the list. This will allow staff to focus on items that are still of importance to the current City Council.

The current list (see attached) consists of approximately 23 different City Council requests. The list also shows the Council requests by department. Currently, there are:

- Community Development/Planning Division – 8 requests
- City Administration – 7 requests
- Finance Division – 4 requests
- Utilities Department – 2 requests
- Council Ad Hoc – 2 request

January 5, 2021

Page 2 of 3

Fiscal Impact:

There is no current fiscal impact associated to the discussion of City Council requests.

Conclusion

By having the City Council review the current list of requests, staff will then be able to focus their workload to address any of the remaining items.

Respectfully submitted,

Jim Throop, City Manager

Attachment: List of Current City Council Requests

City Council Requests

Community Development/Planning Division

▪ **Short-term**

1. Discussion of Sign Ordinance – Temporary Signs
