

EXHIBIT B

**City of Lompoc  
Electric Division**

**Revised Renewable Portfolio Standard  
Enforcement Program**

*January 19, 2021*

## **1. Introduction**

This document presents the Updated Revised Renewable Portfolio Standard Enforcement Program (Program) of the City of Lompoc Electric Division (Lompoc Electric), as required for compliance with the California Renewables Portfolio Standard Program (RPS), Public Utilities Code Sections (PUC) 399.11 - 399.33.

Since first enacted, the state's RPS Program has been amended to attain a target of generating 20% of total retail sales of electricity in California from eligible renewable energy resources by December 31, 2020, 50% by December 31, 2026, and 60% by December 31, 2030. Pursuant to PUC section 399.30(a), each Publicly Owned Utility must adopt and implement a renewable energy resources procurement plan and a separate program for the enforcement of the RPS renewable energy resources procurement plan.

On October 15, 2013, the City Council adopted Resolution No. 5877(13) adopting a revised Renewable Energy Resources Plan and on December 6, 2011, adopted Resolution No. 5755(11) adopting a Renewable Portfolio Standard Enforcement Program. This Program is an update to the Lompoc Electric's Renewable Portfolio Standard Enforcement Program.

With all future resource needs, Lompoc Electric, shall apply this document, as approved by the City Council, to assure that the City's retail electric customers are provided at least a minimum quantity of electricity products from eligible renewable energy resources and products consistent with the targets set forth in this Program.

## **2. Purpose**

The provisions listed below make up the Program.

- A. Lompoc Electric shall have a program for the enforcement of the current Revised Renewable Energy Resources Procurement Plan (Plan), which shall include all of the provisions, set forth herein in the Plan.
- B. Annual review by the Utility Director of the Plan for each year from 2021 through 2030 shall ensure that Lompoc Electric is making reasonable progress as defined in Section 5 of the Plan.
- C. Compliance Period review of the Plan shall include consideration of each of the following elements:

By December 31 of each year following the end of a Compliance Period:

1. Verify that Lompoc Electric has met the procurement targets of renewable energy procurement for each compliance period defined in Sections 3 and 5 of the Plan.
2. If targets are not met, Lompoc Electric must:
  1. Review the applicability of applying Excess Procurement from previous Compliance Periods consistent with the provisions of the Plan.
  2. Ensure that any Waiver of Timely Compliance was compliant with the provisions in the Plan.
  3. Review the applicability and appropriateness of excusing performance based on the Cost Limitations for Expenditures provisions of the Plan.
  4. Ensure that any Portfolio Balance Requirement Reduction was compliant with the provisions of the Plan.

D. If it is determined that Lompoc Electric has failed to comply with the provisions of its Plan, the City Council shall take steps to correct any untimely compliance, including:

1. Reviewing Lompoc Electric's Plan to determine what changes, if any, are necessary to ensure compliance in the next Compliance Period.
2. Report quarterly to the City Council regarding the progress being made toward meeting the compliance obligation for the next Compliance Period.
3. Report to the City Council regarding the status of meeting subsequent compliance period targets, and all steps being taken to ensure that the obligation is timely met.
