**RE: Noise Concerns regarding Equipment at 1625 Road 2, Lompoc
APN: 099-141-003**

Dear Ms. Miyasoto:

As you might be aware, residents of the City of Lompoc (City) have contacted the City Council regarding noise emanating from the strawberry farm operations at the above address. The City recognizes that the unusual noises that nearby property owners may experience are from being part of an agricultural community. The City also understands that the City's residents' rights and expectations of the quiet and peaceful enjoyment of their homes during early morning and late evenings. That understanding is also coupled with the acknowledgement of the expense of strawberry, or any other, farming, especially during cold spells.

With all that in mind, the City is hopeful you will do what you can to assist the Lompoc neighbors who have petitioned the City Council for support with their concerns, and to consider, in the any future, the impact of such noises on Lompoc residents. Please let the Lompoc City Manager know what he may do to assist you in those efforts.

Thank you in advance for your expected attention to this matter.

Sincerely,

City of Lompoc
