Subject: Safe Parking / Urge continuation of CPU process

Brian-

I'm urging you to consider keeping the CUP process attached to the Safe Parking program(s) in Lompoc.

Safe Parking, like most worthwhile programs, can only function well if it enjoys broad community support.

Appropriate applicants have the best opportunity to successfully transition to permanent housing if they are situated in locations the community has identified as agreeable.

Denying local residents input on issues that affect their daily lives and living environment is bad policy-- and bad politics.

Further, doing so is likely to create antipathy toward the program, which is not only unfair to its participants, it is the surest way to see the program fail.

Thanks for all you do- and thanks for listening.

Mark Jackson
