“Dec. 13 marks my turning 100 years young. I’ve learned much over that time, but looking back, I’m struck that there is one lesson I learned early and then relearned over and over: Trust is the coin of the realm. When trust was in the room, whatever room that was — the family room, the schoolroom, the locker room, the office room, the government room or the military room — good things happened. When trust was not in the room, good things did not happen. Everything else is details.”

George P. Shultz Former Secretary of State
