

RESOLUTION NO. 6490(22)

**A Resolution of the City Council of the City of Lompoc,
County of Santa Barbara, State of California,
Appropriating Funds to Purchase
Electric Utility Equipment
(Wash Trailer, Pole-Mounted and Pad-Mounted Switches)**

WHEREAS, the City of Lompoc (City) Electric Utility Division (Division) has a 2005 model year Altec wash trailer; and

WHEREAS, this unit was put into service January 1985 and has subsequently been taken out of service as of December 2021; and

WHEREAS, emission standards in California are regulated by the Air Resources Board (ARB) and have become increasingly stringent since this unit was put into service; and

WHEREAS, the existing power plant is Tier 0 rated; however, current day emission standards require Tier IV to be compliant with ARB regulations; and

WHEREAS, staff explored retrofitting the existing unit; however, was consequently advised by the manufacturer a retrofit with a new Tier IV power plant is not possible due to variability in sizes and configurations of the power plant and the equipment it drives; and

WHEREAS, therefore, with the existing power plant no longer in compliance and a retrofit deemed not viable, ARB regulations mandate this unit is to be taken out of service and deemed non-operational; and

WHEREAS, as a result, the Utility Department must now request appropriations for the purchase of a new unit at an estimated price of \$200,000; and

WHEREAS, this purchase is un-programmed in the existing fiscal year budget; and

WHEREAS, prudent electric utility management includes maintaining sufficient stock of high-value items such as pole-mounted and pad-mounted switches to respond to planned and emergency work; and

WHEREAS, due to disruptions in the supply chain, high-value items are difficult to procure, with extraordinary cost increases and protracted timelines for delivery; and

WHEREAS, in response to these externalities, the City Council desires to provide supplemental appropriations in the amount of \$400,000 to meet the needs of the Division.
