

Recycling Requirements for Apartments

Why recycle?

- State law requires that apartment communities and multi-family housing with 5 or more units must recycle.
- Recycling helps conserve resources and extends the life of California's landfills. It also helps create a healthy environment for our community and future generations.

How can we comply with the new State law?

- Subscribe to the recycling service with the City of Lompoc Solid Waste Division.
- Make other arrangements for the sale or donation of recyclables, including self-hauling materials to recycling facilities.

How can we get started?

- Make sure your property management has arranged for recycling services.
- Help residents learn which items can be recycled.
- Make sure residents separate recyclable items from trash inside their homes.
- Tell residents to place recyclable items in external recycling containers for collection and make sure residents know where the containers are located.

Where can we find more information?

Contact the City of Lompoc Solid Waste Division if you need additional information regarding Business Recycling.
