**Subject:** Dec 6 City Council Meeting - Agenda Item 7 - Pale Blue Dot Presentation  
**Date:** Tuesday, December 6, 2022 4:12:03 PM

---

Dear Council Members,

Sorry I can not be at the meeting in person. As a resident of Lompoc, a business owner and leader in technology, I urge you to support the extension of the MOU for Pale Blue Dot's proposal. I saw their presentation about 6 weeks ago and feel this will be a great asset to the area. The educational and experience opportunities will be first rate and will enhance Lompoc's image as the home of the US Space Force. It will add a reason for people to stay around town after watching one of the many rocket launches. Please support their ongoing effort to make their vision a reality. Please contact me if you have any questions.
