Subject: Space Center Project

Dear Sir or Madam:

I am writing to express my support for the "Space Center " Project as currently proposed by Pale Blue Dot Ventures . .

Lompoc needs an *identity !!*

The Space Center Project would be a valuable asset to the entire Central Coast area, but especially the Lompoc Valley.

The potential economic, cultural and educational value would be immense !!

The Center, as proposed, would ***put Lompoc on the MAP !!***

PLEASE consider all of these potential benefits, and do everything in your power to facilitate the continuation/realization of this valuable project !!

Thanks for your consideration !!
