Re: Proposed Development of a Space Center Project by Pale Blue Dot Ventures

Honorable Mayor Osborne and City Council Members,

Unfortunately, I am unable to attend the City Council meeting this evening. Nevertheless, I fully support an extension of the Memorandum of Understanding between the City of Lompoc and Pale Blue Dot Ventures for 4-6 months to allow negotiation of a Disposition & Development Agreement.

I have known Steve Franck for over five years and I am familiar with the progress he and his team have made on this venture. I believe this project will positively transform Lompoc and the surrounding areas. The material they will discuss tonight has never been completed for the Lompoc market and is essential for a project of this magnitude to be successful.

I encourage each of you to continue your support for this project.

Regards,

Robert E. Traylor
