---

Hi – we have a tasting room in the wine ghetto and the trucks, RVs and cars parking overnight on the streets adjacent to our Wine Ghetto is a problem. They leave trash around, make the place a mess and just does not make people feel they are safe. The wineries and tasting rooms contribute to Lompoc economy; however with the situation going on in the Ghetto we are losing traffic to our tasting rooms. Folks have other choices that don't have these issues. Please endorse restricting parking.
