Program Eligibility & Guidelines

- Rebate(s) apply to upgrades on existing homes only. New construction does not qualify.
- Installations required by Title 24 codes and standards are not eligible for rebate(s).
- Central air conditioning and heat pump rebates are based on the Air Conditioning, Heating and Refrigeration Institute (AHRI) certificate rated cooling capacity (1 Ton =12,000 Btuh).
- To calculate the tonnage of your system, obtain the cooling capacity in Btuh, found on AHRI, and divide that number by 12,000.
- Seasonal Energy Efficiency Rating (SEER), Energy Efficiency Ratio (EER), and Heating Seasonal Performance Factor (HSPF) represent the efficiency ratings, and the AHRI certificate or number must be included with the application.
- The rebate is based on the cooling capacity of the AHRI certificate for the qualifying equipment ie:45,000 btuh/12000 = 3.75 ton.
- For questions regarding City of Lompoc specifications, call (805) 875-8018.
