To whom it may concern:

I want to express my full support for bringing to the city of Lompoc the Space Base. Tourism in general and specifically the notion of Space in this day and age will bring positive activity and revenues to the City of Lompoc. The concept has been extremely well thought out and the principals of the venture are highly committed as to the design, to education for all, young and old, and are projecting realistic financial goals.

My California based company and I personally look forward to the successful development of such a project !

Sincerely,

Alain Piallat
