Planning Commission consideration of Architectural Design/Site Development Review (DR 2023-0004) for the construction of a 1,200 square foot Starbucks drive-through coffee shop with walk-up window (no indoor seating), trash enclosure, parking, and landscaping to be located at 901 North H Street and 101 West Oak Avenue (APNs: 089-070-027 and 089-070-030) in the Planned Commercial Development (PCD) and H Street Overlay (HSO) zoning districts. A Negative Declaration has been prepared for the project pursuant to the requirements of the California Environmental Quality Act (CEQA) Guidelines.

Cherridah Weigel, Associate Planner, presented the staff report in a PowerPoint presentation.

Brian Halvorson, Planning Manager stated that the applicant has submitted a revised site plan showing the requested circulation changes. The submission was recent and there was not enough time to include the changes in the Commission packets.

Commissioner Bridge requested clarification on the H Street driveways and walk-up traffic.

Ms. Weigel clarified that there is a walkway crossing the drive aisle which leads to the walk-up window, and that there are two existing driveways on North H Street, and the northern driveway would remain and the southern driveway would be removed and replaced with frontage improvements.

COMMISSION REQUESTS:

Commissioner Bridge inquired on the status of El Pollo Loco.

Mr. Halvorson stated that El Pollo Loco is still moving forward and that they are on their third Building Plan Check and that they have changed project managers.

Commissioner Bridge inquired if there was a “Builder’s Remedy” project application submitted in the County of Santa Barbara near Lompoc.

Mr. Halvorson stated after the LAFCO denial of the Sphere of Influence boundary change for the Bailey Avenue Area the applicant was frustrated and submitted a “Builder’s Remedy” project application to the County of Santa Barbara for the Bodger property located on West Olive Avenue between West Olive Avenue and West Ocean Avenue, west of South V Street. The City of Lompoc has not issued a “Can & Will Serve” letter for utilities for the property. There is a current agreement to service utilities to the property for agricultural purposes only, not for residential uses.

Mr. Halvorson also noted that LAFCO has set up meetings with all the Municipalities within the County to discuss proposed boundary changes.
