

Argument in Favor of Measure R

A YES vote on Measure R is a vote to Boost Lompoc's Future.

Measure R fulfills the decades-old vision when the Department of the Army donated the land now known as Ken Adam Park to Lompoc to be set aside for education and recreation as the Western Spaceport Museum and Science Center.

Now you can help make this vision come true. Yes on R brings immense economic benefits to Lompoc, with economic studies pointing to nearly \$5 million in revenue for the City of Lompoc each year along with 350 full-time and 50 seasonal jobs. The new revenue can be used to improve city services.

Most important, Measure R will provide inspiration for our youth with hands-on learning that will propel their education in a fun state-of-the-art facility.

The Space Base will be a vibrant educational hub, providing immersive experiences and interactive learning opportunities that will transform the future for youth in Lompoc.

That is why the Lompoc School District Board passed a resolution of support.

Measure R is an opportunity for us to have something (other than launches) for our community. It's the first and likely only chance for residents to share the benefits of the local space program.

And the great part, a YES Vote will maintain public access to Ken Adam Park with an investment of \$325,000 to improve the BBQ area, restrooms, Astronaut Memorial and parking lots to ensure local residents continue to enjoy Ken Adam Park.

VOTE YES ON MEASURE R AND HELP BOOST LOMPOC'S FUTURE.

VOTE YES FOR NEEDED REVENUE FOR OUR CITY TO BENEFIT EVERYONE.

VOTE YES TO BRING AN OPPORTUNITY TO INSPIRE, EDUCATE AND ENTERTAIN

OUR YOUTH.

MEASURE R IS A BOOST FOR LOMPOC'S FUTURE.

VOTE YES ON R.
