

Steve Bridge

Candidate for Lompoc City Council District 1

As a 40-year Lompoc resident, I bring a wealth of experience to serve our community. My background includes military service, engineering degrees, and a successful career in aerospace and high-tech industries. I've led major corporations and supported local businesses through my consulting firm. My community involvement is extensive, serving on various boards and commissions, including Parks and Recreation, Economic Development, and currently the Planning Commission. I'm also proud to be the President of the Flower Festival and a founder of Certain Sparks Music Foundation. If elected, my focus will be on:

1. Bringing common sense and compassion to city government
2. Supporting public safety, stabilizing utility costs, and improving street maintenance
3. Enhancing local parks and addressing homelessness through targeted initiatives

With my diverse experience in business, community service, and local government, I am committed to making Lompoc a city we can all be proud of. I respectfully ask for your vote to serve as your City Council representative for District 1.
