The proposed amendments include replacing the 5-plex (townhomes) residential units with duplexes and single-family units (with revised elevations); updating the custom setbacks to account for building encroachments for the single-family homes (containing Accessory Dwelling Units); reducing the number of covered parking spaces; revising the landscaping (an overall increase in common area landscaping); and updating the colors and materials board. This project was previously reviewed with an Addendum to a previously certified Environmental Impact Report (EIR 04-01; SCH No. 2004061107) in accordance with the California Environmental Quality Act (CEQA) guidelines. The proposed modifications to the project do not change any of the environmental conditions of the project as described and evaluated in the Addendum, and therefore no further environmental review is required.
